

A 34-year old chemical trading pioneer setting new standards by supplying consistent, safe, certified products: The legacy of **ABC Group of Industries**

By : Pooja Kundoo

Hiroo Thadani
Founder & MD, ABC Group of Industries

A key contributor to the augmentation of our country's growth, Chemical Industry's significance can be witnessed even in the pint-size detail of our day, the food we eat, paper, ink, paints, and fixtures; it is ubiquitous. Surfing from domestic spectrum towards heavy industry, chemical utilization cannot be held back and the soaring demand across varied industries has fostered the chemical industries like Leather industry, Lubrication, Plastics, Paper, Printing, Textiles evolve enough even to supply to the international geographies of the world. One such leader and a specialist service provider to coating industries sailed out its journey 34 years ago with a promise to channelize world-class products with a commitment to Quality and Trust. With sands of time, ABC Chemicals has established its legacy as a pioneer with its promise reflecting its heritage of constantly seeking improvement, while maintaining long-term relationships with customers. The brainchild of a business veteran Mr. Hiroo Thadani, ABC Chemicals stands as a recognized trade and distribution multinational company endowing raw materials to the printing ink, paint, plastic and packaging industries. Nestled in the financial capital of India- Mumbai, ABC has spread out its branches over international boundaries including China, UAE, Egypt, Thailand, Nigeria, and USA. As a trading house, ABC takes great pride in seeking out and sourcing the very best quality suppliers and products, while supplying a wide basket of specialty chemicals to global markets.
